

# St Matthew's Catholic Primary School

## Student Behaviour Support Plan

**A WHOLE SCHOOL APPROACH TO BEHAVIOUR SUPPORT**

**Positive Behaviour for Learning**

## **School Mission and Vision - Teach Challenge Transform**

St Matthew's is a Catholic learning community dedicated to the holistic education of our community through faith, knowledge and love. Following in the tradition of St Mary of the Cross MacKillop, we live the message of Jesus, as we welcome and treat all of creation with kindness, dignity and respect.

### **Policy Vision**

Engaged and motivated learners always faithful to our loving God "Every Child, Every Day".

#### **We Value Dignity**

- Each person has the right to be accepted and to belong and has a responsibility to accept others and help them to belong and feel welcome.
- Each person will be addressed by name.
- Each person will use words and actions that promote and display good manners.
- Each person has the right to be treated with dignity.

#### **We Value Respect**

Each person has the right to be respected.

Each person will recognise others' need for privacy of property, person and information.

#### **We Value Kindness**

Each person will work to promote a sense of kindness and compassion in all relationships that develop within the community.

### **Our School Context**

St Matthew's Catholic Primary School is situated in Logan City 30km south of Brisbane. St Matthew's School was established in 1984 by the Sisters of St Joseph, and they have contributed greatly to the development and culture of our school. The school is a three- stream school from Prep – Year 6 and has a current enrolment of approximately 570 students.

### **Consultation and Review Process**

This policy was developed initially in 2010 through a consultation process and is reviewed annually. In 2018 a committee reviewed the policy for implementation in 2019. The policy is reviewed every 2 years with a high-level check performed annually. This policy will next undergo review in 2026.

## **Section A: Our Student Behaviour Support Systems**

### **1. Our Beliefs and Common Philosophy about Learning and Teaching**

- Our beliefs about teaching and learning socially at school, student behaviour supports, and responding to students to meet their needs, unify us and direct our actions.
- The following beliefs reflect current literature in positive behaviour supports:
- Schools play a vital role in promoting the intellectual, physical, social, emotional, moral and spiritual and aesthetic development and wellbeing of young Australians (Melbourne Declaration).
- Every day at school, students have the opportunity to learn and practice social skills and develop General Capabilities through the curriculum (ACARA).
- Behaviour is learned, therefore responsible behaviour can be taught.
- Student discipline is best achieved through instruction rather than punishment.
- Student behaviour can be taught with the same strategies used in learning and teaching

academic skills.

- Misbehaviour presents the student with an opportunity to learn, the educator with an opportunity to teach.
- For behaviour change to occur, we must use positive approaches that strengthen teacher-student-parent relationships.
- Student discipline is a collaborative effort. In partnership with parents and carers, we are committed to the success of each and every student.
- Efforts to support all students to become successful learners, confident and creative individuals and active and informed citizens require ongoing teaching, encouragement and correction.
- Students need and want high standards for their behaviour. Maintaining high expectations does not require “get tough” or punitive approaches.
- An integrated system of school wide, classroom support and individual student supports can play a central role in improving behavioural outcomes and developing learning disposition for the students we serve.
- This system also has the potential to contribute to an increased sense of efficacy and job satisfaction for our staff.
- Services for students with chronic or intense behaviours are more effective within the context of school-wide commitment to the social and academic development of all students.

## **2. Our Beliefs about Trauma-Informed Education**

- Trauma-informed education is underpinned by the belief that trauma fundamentally shapes brain development, emotional regulation, memory, attention and relationships. Prolonged or complex trauma can disrupt neurological development, leaving students more vulnerable to hyper-arousal, dissociation and difficulties with learning and behaviour in school contexts (ACF, 2010; NSW Department of Education, 2020).
- A central belief is that behaviour is meaningful communication. Rather than viewing challenging behaviour as misconduct, trauma-aware frameworks interpret behaviour as a signal of unmet needs, perceived threat or stress. This belief reframes discipline from control and punishment to understanding, regulation and support (Downey, 2007; Ayre & Krishnamoorthy, 2020).
- Another key belief is that schools can function as places of healing, even though they are not clinical settings. Everyday experiences of predictability, safety, success and positive relationships can buffer the effects of trauma and support recovery and resilience (ACF, 2010; National Guidelines for Trauma-Aware Education, n.d.).
- Trauma-informed education also assumes that educators are not therapists, but that all school staff require shared knowledge, language and consistent approaches to avoid re-traumatisation and to support students effectively (NSW Department of Education, 2020; Newton et al., 2024).

## **3. Our Systems Approach - Positive Behaviour for Learning (PB4L)**

BCE's approaches to supporting positive student behaviour and engagement for learning and wellbeing are founded on the following evidence-based principles:

- Positive staff-student relationships where teachers know and understand their students
- Create and maintain supportive, safe and orderly learning environments  
Provide explicit teaching of positive behaviours for learning
- Establish high expectations for all in an environment of appropriate challenge  
Implement effective pedagogy for student engagement that is responsive to the individual needs of students
- Utilise classroom strategies and routines in the classroom to support expected behaviour  
Use school-wide supports and initiatives to demonstrate what success looks like, and build expectations and norms around behaviour
- Use targeted and/or personalised approaches to meet the needs of individual students
- Ensure a school-wide approach to consistent teacher practice and a multi-tiered system of supports (MTSS) and responses to behaviour

(Brisbane Catholic Education, 2024)

### What is Positive Behaviour for Learning?

PB4L is a framework (Diagram 1) for schools that use a system approach to positive behaviour supports for all students. The aim of implementing the framework is to achieve increased academic and social progress and achievement for all students by using evidence-based practices.

One of the focus areas is explicit teaching of behaviours that assists students to access learning – academically and socially - at all stages of development throughout their education.

Diagram 1: Adapted from *School-wide Positive Behaviour Support: implementers' blueprint and Self-Assessment*, by OSEP Centre On Positive Behavioural Interventions and Supports, 2004, Eugene OR: Lewis

### Practices

Trauma-informed and trauma-aware education is enacted through consistent, everyday practices across classroom, school and system levels, rather than isolated interventions (National Guidelines for Trauma-Aware Education, n.d.; Newton et al., 2024).

### Theoretical and conceptual characteristics

PB4L is the redesign of learning environments, not students. The theoretical and conceptual understandings of PB4Learning are firmly linked to Behavioural Theory and Applied Behavioural Analysis (Carr et al., 2002). This perspective emphasises that observable behaviour is an important indicator of what individuals have learned and how they operate in their environment. Environmental factors are influential in determining whether a behaviour is likely to occur, and new and alternative pro-social behaviours can be taught (Sugai & Horner, 2002; Sugai et al., 2008)

### **Continuum of support and key features**

An important component of PB4L is the adoption of a continuum of behavioural supports (Diagram 2) that, like academic instruction, acknowledges that students will need differing levels of behavioural interventions and supports to be successful at school. Within the continuum there are three levels of support.

#### Tier 1 Universal Supports:

This first level focuses on universal behavioural and academic supports for all students. Here the focus is on prevention of problem behaviours, providing explicit teaching of expected behaviours and creating positive learning environments across all settings in the school. Research has shown that approximately 80-85% of students will respond to proactive universal supports, display the desired appropriate behaviours and have few behaviour problems (Horner & Sugai, 2005; Lewis, Newcomer, Trussell & Ritcher, 2006).

#### Tier 2 Targeted Supports:

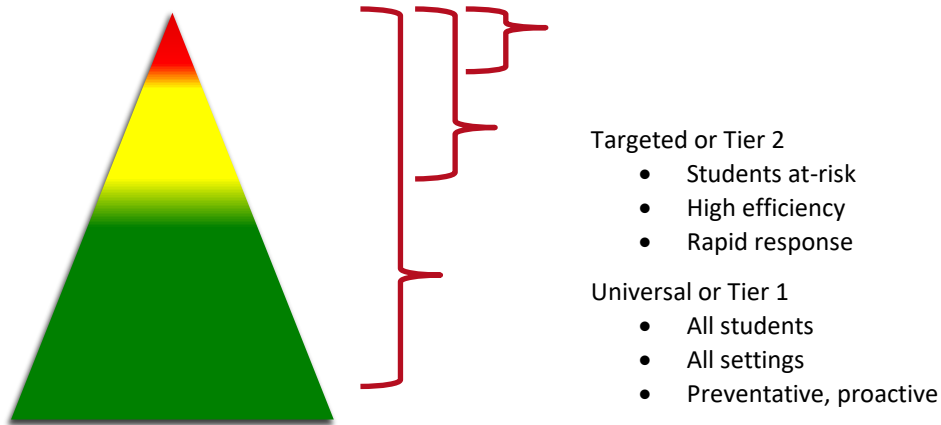

This second level focuses on targeted supports for students who continue to display problem behaviour even with the universal supports in place. Using data analysis, students are identified early, before problem behaviours become intense or chronic, to receive targeted supports such as small group social skill instruction, academic supports, mentoring and/or self-management strategies (Sailor et al., 2013).

#### Tier 3 Personalised Supports:

This third level focuses on personalised supports that are intensive and individualised. These students will require highly individualised behaviour support programs based on a comprehensive behavioural assessment, which at times, will include mental health professionals and family and community services.

Diagram 2: **CONTINUUM OF STUDENT SUPPORTS**  
Personalised or Tier 3

- Individual students
- Assessment based
- Intense, durable intervention

By building a connected continuum, everyone in the school is aware of how each level of support is connected to the universal systems i.e. every targeted and individualised intervention uses the universal set of behavioural expectations to increase the likelihood of maintenance and generalisation to other contexts.

### 3. Student Behaviour Support Leadership & Professional Learning for school staff

The St Matthew's PB4L committee is comprised of members of the Student Support Team (Support Teachers: Inclusive Education, Guidance Counsellors, and School Leadership Team) and are responsible for regular reviews of the school plan. High level checks are completed annually with a substantial review every 2nd year.

Staff are trained in the use of 'ENGAGE' Student Behaviour Support Systems which will help track students across the school. They can also use 'ENGAGE' to request support for individual students. Each week the Student Support Team and Classroom Teachers will meet to discuss individual support plans through the analysis of Engage Data.

## Section B: Our Student Behaviour Support Practices

## 1. Clarity: Our Expectations

School-wide expectations encourage consistent communications and establish a common language of expectations for all staff and students and across all settings. Agreed upon student expectations promote the school's Catholic Identity and provide consistency across the staff and school community. Our expectations on the way all members of our community sustain authentic and lifegiving relationships are bound by our school values of:

- Faith
- Knowledge
- Love

Our school behaviour matrix is a visual tool that outlines the expectations of behaviours we expect all students and staff to learn, practice and demonstrate. They allow us to teach proactively and to provide students and parents with a positive message about behaviours for learning at school.

In addition to our school expectations, our affective curriculum is informed by the General Capabilities in the Australian Curriculum. The General Capabilities encompass the knowledge, skills, behaviours, and dispositions that, together with curriculum content in each learning area and the cross-curriculum priorities, will assist students to live and work successfully in the twenty-first century.

The Personal and Social Capability is one of the seven General Capabilities that outlines student developmental stages of self-awareness, self-management, social awareness and social management. The behavioural and social emotional skills in this capability are to be taught through the learning areas of the approved curriculum. [www.acara.edu.au](http://www.acara.edu.au)

## 2. Focus: Teaching Expected behaviour

Effective instruction requires more than providing the rule – it requires instruction, practice, feedback, re-teaching, and encouragement (Sprague & Golly, 2005). Instruction takes place each day, throughout the day, all year long.

In addition, direct teaching may be done using some or a combination of the following:

- Each class designs their own Classroom Covenant.
- We have a whole school PB4L focus every 2 weeks that is taught and reinforced.
- Assemblies regularly communicate the whole school focus.
- The school will participate in community wide events like “No Bullying Day.”
- Student leaders support younger peers (e.g. Buddy Groups focus on PB4L topics).

## 3. Feedback: Encouraging Productive Behaviours for learning

Tier 1 Universal Supports:

Feedback should cause thinking (Dylan Wiliam, 2011). In education, we use the term “feedback” for any information given to students about their current achievements (Wiliam, 2011 p.122). Feedback to students provides them with the way to move their learning forward and make progress in their learning.

Our school encourages and motivates students, both as they are learning the expected behaviours and then to maintain those skills and dispositions as students become more fluent with their use. Specifically,

our school encouragement system utilises effective, specific positive feedback, adult attention (contingent and non-contingent) and a tangible reinforcement system.

The encouragement strategies in place for school and classroom include:

Each fortnight on assembly, merit certificates are awarded to a student from each class who exhibits positive behaviour	Children who show behaviour above and beyond what is expected will be given opportunities for responsibilities and leadership.
In 2026, St Matthew's has embraced the Friendology Program for implementation across Prep – Year 6 which links to Tier 1 and PB4L teaching.	A student in Year 6 is acknowledged each year by receiving a School Spirit Award.
Staff use ENGAGE to help track patterns of behaviour which may need to be reviewed and responded to.	Class teachers and the support team provide rewards tailored to individual students (e.g. prizes, activities, messages home).

#### Tier 2 Targeted Supports:

Targeted evidence-based interventions play a key role in supporting students at risk of academic and social problems and may prevent the need for more intensive interventions (Sailor et.al., 2009). These students consistently have trouble with low level but disruptive behaviours that interfere with instruction and hinder student learning. Targeted inventions should be timely and responsive and use similar strategies and social curriculum across a group of students.

Students are identified proactively, using academic, behaviour and attendance data accompanied by teacher nomination or through a screening process. Our targeted supports have systems in place to monitor student progress, make modifications, and gradually decrease support as student behaviour and engagement improves.

The evidence-based targeted supports currently available for students in the school include:

- The Behaviour Education Program (Check in- Check out) – (Crone, Horner & Hawken, 2004). This evidence-based Tier 2 support builds on the school-wide expectations by providing students with frequent feedback and reinforcement from their teacher/s, a respected facilitator, and the student's parents for demonstrating appropriate behaviour and academic engagement. The goal is to move the student to self-management.
- The Check and Connect Mentoring Program – (Christenson et al, 2012). The core of Check and Connect is a trusting, relationship between the student (Year 10 -12) and a caring, trained teacher mentor. This mentor both advocates for and challenges the student and partners with the family, school, and community to keep education salient for the student.
- Social Skills Clubs/Groups. This type of intervention involves directly teaching social skills to enhance a student's ability to interact with peers and adults. Whilst social skill instruction may be part of the work done in universal supports this type of targeted support occurs in smaller groups with students who require additional practice and feedback on their behaviour. A teacher or guidance counsellor facilitates this type of group.

### Tier 3 Personalised Supports:

Successful outcomes for students whose behaviour has not responded to Universal or Targeted supports are dependent on our ability to intervene as early as possible with appropriate evidence-based interventions. A function-based approach is an essential feature of PB4L.

Personalised supports currently on offer at the school include:

- Functional Behavioural Assessment with associated plan
- Individual Behaviour Support Plan
- Pro-active, Collaborative Problem-Solving process (Dr Ross Greene)
- Guidance Counsellor support services
- Student Support Team case management - planning and implementation of individualised support plans and monitoring data
- Partnerships with outside support agencies and specialists
- The Check and Connect Mentoring Program – (Christenson et al, 2012).

#### 4. Feedforward: Responding to Unproductive Behaviours

Even with our positive approach to teaching and supporting expected behaviours for learning, unproductive student behaviour will still occur. For some students, they do not know how to perform the expected behaviour, or don't know it well enough to routinely use it at the appropriate times. For some students, the maladaptive behaviours they are using appear to meet their needs. When responding to unproductive behaviours, all staff take a positive, supportive approach that builds, maintains, and sustains relationships with students.

To feedforward when responding to unproductive student behaviours, we have a system in place that enables staff to respond to minor unproductive behaviours efficiently and effectively, to chronic persistent minor behaviours and to major unproductive behaviours that hinder learning. In this continuum, thinking begins with clarity between minor behaviours (that can and should be managed by teachers, within the context of the classroom and non-classroom settings) and major behaviours (that are best managed in a more private setting with the class teacher and leadership in partnership). The definitions of teacher managed behaviours (Minor) and teacher plus leadership managed behaviours (Major) have been included in Appendix A.

Although the teacher is the key problem solver when responding to minor behaviours, they collaborate, and share creative strategies, with colleagues. Teachers respond to minor behaviours using best practices that include reminders of expectations, re-directing to learning and re-teaching behaviours. Appendix A includes a summary of practices that may be utilised.

The positive, support strategies currently in place for responding to unproductive behaviours at our school can be classified under the three evidence-based approaches recommended in BCE SBS policy and procedures, and include:

De-escalation	Problem-solving	Restorative

Supervised calm time in a safe space in the classroom Supervised calm time in a safe space outside of the classroom Set limits Individual crisis support and management plan	Teacher – student conversation Work it out together plan – teacher and student Teacher – student – parent meeting Teacher – student – leadership conversation	Student apology Student contributes back to the class or school community Restorative conversation Restorative conference
---	--	--

See Appendix C for our Support Process Flowchart.

## 5. BCE Formal Sanctions

- Detention process at St Matthew’s takes place at break times and provides an opportunity for students to shadow a teacher on duty if the classroom teacher is not able to provide the redirection themselves. On shadowing duty, the teacher and student discuss safe, mindful and respectful behaviours and ways that they can learn to demonstrate these more consistently. It might be helpful to discuss some restorative actions that the students could enact to repair relationships which may have been harmed.
- Suspension process at St Matthew’s takes place after other strategies have been attempted at the discretion of the APA in consultation with the Principal. The Engage Suspension record is completed by the APA. Parents are notified via an official Suspension Letter from the APA/Principal after a phone call to the parent or caregiver. In this communication a Re-Entry meeting is discussed along with Re-Entry plans. We align to the processes outlined in the current Brisbane Catholic Education
- Exclusion at St Matthew’s would be a last resort after all other options have been exhausted. This would involve consultation with BCE Senior Leadership and all relevant stakeholders.

## Appeals Process

Sanction	Appeal process
Suspension 1-5 day	Appeal made to the school principal
Suspension 6+ days	Appeal made to the Senior Leader School Progress and Performance by emailing <a href="mailto:SchoolProPer@bne.catholic.edu.au">SchoolProPer@bne.catholic.edu.au</a> .

<b>Outcome of Appeal</b>	The appeal reviewer (Principal or Senior Leader – School Progress and Performance) must: (a) make the review decision within 5 business days after the application is made; and (b) as soon as practicable after the decision is made give the person written notice of the decision.
<b>Exclusion</b>	An appeal against an exclusion must be submitted in writing to the Compliance and Performance Executive within 10 school days after receiving notification of the exclusion.

## 6. Bullying and Cyberbullying – information, prevention, and school responses

The purpose of this section of our School Student Behaviour Support Plan is to describe our approach to positive, proactive practices in support of student behaviour and wellbeing in relation to the prevention, intervention and responses to student bullying and harassment (inclusive of victimisation of students with disability and their associates).

### Definition

The national definition of bullying and harassment for Australian schools says:

Bullying is an ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm. It can involve an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening.

Bullying can happen in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records).

Bullying of any form or for any reason can have immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying. (Ref: Bullying No Way).

### Our whole-school approach to preventing and responding to student bullying and harassment

Our school uses the PB4L framework, the Australian Education Authorities resource [Bullying NoWay!](#), and from 2026, resources and lessons provided by Bullyproof Australia to assist our students, staff and school community to understand, teach, prevent and respond to bullying and harassment.

#### 1. Understanding Bullying and Harassment

St Matthew's regularly undertakes staff professional development around understanding bullying and relevant research. Our school acknowledges focus days (e.g. Bullying. No Way! Day) and focus weeks (e.g. Wellbeing Weeks with Anti-Bullying focus) to bring awareness and education to students and our community about bullying.

#### 2. Teaching about Bullying and Harassment

St Matthew's uses the Australian Curriculum (ACARA, including the personal and social capabilities) and the BCE Religious Education Curriculum to embed the teaching of healthy relationships and positive behaviours in relation to bullying and harassing behaviours. In 2026, St Matthew's has partnered with Bullyproof Australia to:

- supply learning experiences to all classes throughout the year,

- deep staff understanding of bullying and conflict and
- provide time for community reflection on our communal response to bullying

### 3. Responding to Bullying and Harassment

Reporting procedures for students, families and staff of incidents of bullying and harassment:

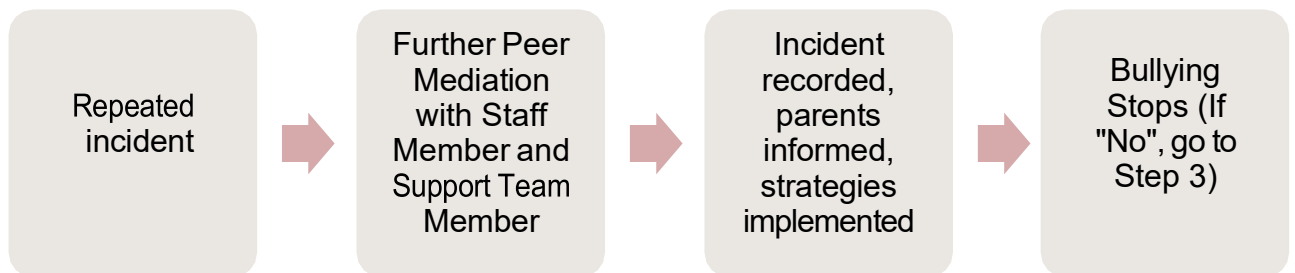

- Students report incidents of concern including bullying and harassment to their teacher, any staff member, or to their parent who can then inform the school.
- Families can report to any staff member or Principal via school email or contact through the office.
- Staff report to relevant support personnel.

Our school responds to incidents of bullying and harassment by:

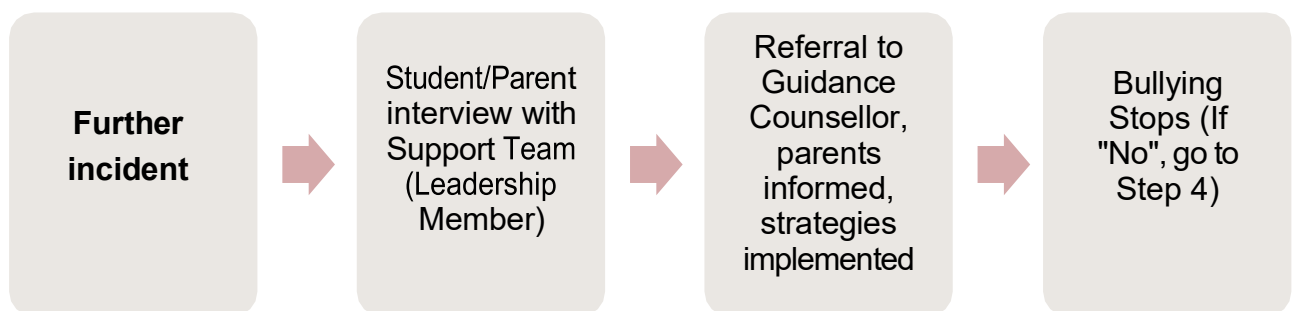

#### **STEP 1**

## STEP 2

## STEP 3

## STEP 4

All staff must take all reports of bullying and harassment seriously and respond with a school team process.

- **Listen** carefully and calmly, and document what the student tells you. (Take the time to clarify with the student who has reported the incident that you have all the facts, including if there are immediate safety risks and let the student know how you will address these).
- **Collect** information, document and evaluate, including examples from the student/s, staff and bystanders involved.

- **Contact** parent/guardian to inform them of the incident, give details of the school's immediate response, and how the incident will be followed-up. Contact appropriate school personnel (Principal and school leadership). Always maintain confidentiality and privacy.
- **Determine** if this is an incident of bullying or harassment. If the incident does not meet the criteria for bullying or harassment, it can be recorded as a pastoral note in the Engage Student Support System.
- **Record** the incident either as Minor-Teasing or Major-Bullying/Harassment and complete the bullying record in the Engage Student Support System in a timely manner.
- **Respond** to incident, following the school's student behaviour support plan. Where possible, schools should work towards a positive outcome and relationships are restored. Formal sanctions could be part of this response.
- **Plan** the response with the student/s and their families to provide support, teaching and strategies.
- **Follow-up** and gather any additional information, including data analysis on Engage Student Support System. Set a date for follow up review and monitoring.

#### 4. Preventing Bullying and Harassment

St Matthew's works to prevent bullying and harassment in the following ways:

1. Student assemblies: Student bullying and expectations about student behaviour are discussed and information is presented to promote a positive school culture where bullying is not accepted (e.g. Year 6 Leaders prepare short videos and presentations for assemblies).
2. Staff communication and professional learning: Staff are supported with professional learning that provides evidence-based ways to encourage and teach positive social and emotional wellbeing and discourage, prevent, identify, and respond effectively to student bullying behaviour (e.g. staff meetings targeted bullying education and strategies to discourage, prevent, and respond to bullying and harassment).
3. School staff have access to foundational training about how to recognise and effectively respond to bullying, including cyberbullying. Provide examples of how your school addresses this (e.g. staff professional development time/days, Year 5 and 6 cohorts have specialist presenters teach about safety online including cyberbullying).
4. New and casual staff will be informed about our school's approaches and strategies to prevent and respond to student bullying behaviour in the following ways (e.g. new and casual staff undertake training and induction with leadership).
5. Communication with parents: St Matthew's provides information to parents to help promote a positive school culture where bullying is not acceptable and to increase parent's understanding of how our school addresses all forms of bullying behaviour (e.g. social media broadcasts about anti-bullying focus days/weeks and information about bullying and bullying prevention; school newsletter).
6. Explicit promotion of social and emotional competencies among students. St Matthew's engages in explicit teaching around bullying and bullying prevention during focus weeks/days and on assemblies. St Matthew's uses the Zones of Regulation as a whole-school approach to teaching social and emotional

competencies.

7. St Matthew's accesses whole school programs to prevent and address bullying using independently evaluated content. St Matthew's accesses the You Can Do It! Program Achieve and Program Achieve Early Childhood. This program is listed on the Be You Programs Directory and is consistent with the STEPS decision-making tool, used to select appropriate and evidence-based anti-bullying programs.

### **Key contacts for students and parents to report bullying:**

- Principal: Nic Constable (07) 3209 6155
- Assistant Principal Administration: Jodie Peeters (07) 3209 6155
- Assistant Principal Religious Education: Tim Lomas (07) 3209 6155
- Guidance Counsellors: Nicolette Hunziker & John Nash (07) 3209 6155

### **Cyberbullying**

Cyberbullying is treated at St Matthew's with the same level of seriousness as direct bullying.

It is important for students, parents and staff to know that BCE Principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds. This includes cyberbullying. In addition, parents and students who have concerns about cyberbullying incidents occurring outside of school hours should immediately seek assistance through the Office of the e-Safety Commissioner or the Queensland Police Service.

Reporting procedures for students, families and staff of incidents of cyberbullying:

1. Students report incidents of concern including cyberbullying and harassment to their teacher, any staff member, or to their parent who can then inform the school.
2. Families can report to any staff member or Principal via school email or contact through the office.
3. Staff report to relevant support personnel.

Our school responds to incidents of cyberbullying following the process outlined in the flowchart under Section "3: Responding to Bullying and Harassment".

### **Resources**

At St Matthew's, we combine the use of the Be You Programs Directory and STEPS – a decision-making tool to help schools select appropriate and evidence-based anti-bullying programs.

The [Australian Curriculum](#) provides the framework for our anti-bullying teaching and learning activities.

The topics of bullying, resolving conflict and overcoming interpersonal issues can be explored in many curriculum areas. The sections specifically relevant to learning about bullying are Personal and Social Capability (General capabilities) and Health and Physical Education. At St Matthew's we are guided by the following resources in addition to those embedded in the Australian Curriculum

- Bullying NoWay
- Office of the eSafety Commissioner
- Friendology (URStrong)
- Bullyproof Australia

## **Section C: Our Student Behaviour Support Data**

### Data Informed Decision Making

The BCE Engage Student Support System is the database all BCE schools are required to use to collect behavioural data for analysis and decision-making. The Engage Student Support System has capacity to record minor and major behavioural incidents so that schools can make data informed decisions about student supports. It also has capacity for schools to record, store and analyse Tier 2 Targeted and Tier 3 Personalised supports, information, and data.

It is mandatory for all BCE schools to record major incidents of bullying, weapons and drugs incidents and complete the accompanying record documentation in the system as comprehensively as possible. Suspension records are also mandatory to complete in the database.

At St Matthew's we use our behavioural data together with other data sources to make data informed decisions about student supports.

This includes a weekly scheduled Support Team meeting (Leadership, STIEs, GC) where behavioural trends are discussed, and responses are planned. The Support Team discusses Requests for Support from teachers as well as patterns in behaviour data and develops plans to respond to these identified needs, prioritising students requiring or enrolled in Targeted or Personalised supports.

## Appendix A – Behaviour Definitions

### Minor Behaviours

	Descriptor	Definition	Example
1	Inappropriate verbal language	Student engages in low intensity instance of inappropriate language	Calling someone an “idiot”, swearing if they kick their toe
2	Physical contact	Student engages in non-serious, but inappropriate contact	Pushing in the tuckshop line, horseplay
3	Disrespect/non-compliance	Student engages in brief or low intensity failure to respond to reasonable adult requests	Saying “No”, “Not going to do it”, “I don’t want to do that”
4	Disruption	Student engages in low intensity, but inappropriate disruption	Calling out, talking to a peers in class
